The Chairman advised that planning approval for the MUGA had now been granted but a condition was requested by the County Council and imposed by the District Council requiring an Archaeological survey before the MUGA could be installed. This was estimated to cost £2,590 and could not be funded from the Section 106 funding. This work must be completed as soon as possible and Councillors therefore resolved to hold a meeting with the Amenities 95 Committee to discuss the funding of this requirement followed by an emergency Parish Council Meeting at 7.30pm on the 18th August.

Once the MUGA had been installed there would still be some funding remaining from the section 106 money and the working group suggested that this be used to provide some facilities for the older children.

Councillors resolved to defer this matter until the next meeting in order for Parishioners to make their views known. Details of the proposals would be included in the August Newsletter and a copy of the proposed routes displayed on the notice board.

The provision of grit bins was also discussed and the responsibility for any liability for this activity. Councillor Tuck queried whether the Parish Council could be held accountable for any liability and the Clerk was requested to make enquiries with CPALC.
